

The Georgia Aquarium

The impressive Georgia Aquarium is the largest of its kind and boasts over 100,000 animals from 500 species. A range of different environments play host to fascinating animals from around the world, from belugas and African black-footed penguins, to sea lions and sea otters, stingrays, sharks and a riot of colourful fish. The Aquarium also has a 4-D theatre that features an animated 3-D film, interactive seats and live actors; a café and the Ocean Ballroom for special events.
